Front-End Developer

Work history 💼

Front-End Developer
Freelance | august 2020-08 — Current

- Maintained, improved and updated current websites.
- I do the correction of errors, quality control.
- Communicated with the customer.
- Implemented many single page applications and landing pages from concept to deployment.
- I participated in testing projects.

Sales Manager
TSSP | 2021-09 — 2022-04

- I was the best sales manager. I always carried out the plan in double volume and more. Managed the team, closed deals from start to finish. I made successful commercial offers, replaced the director.

Education 🎓

Moscow International University
Incomplete higher education| 2021-09 - 2022-05

- I studied jurisprudence, history and the history of Ancient Rome. Very quickly, I did not like this direction and I began to intensively engage in programming

Profile

I am a negotiator in the development world who will lead the business to success and find an individual solution to the problem. I will diplomatically and skillfully find an approach to solving any problem and direct the team in the right direction. For me, each task is the implementation of a unique business solution. I will take the project seriously and meticulously and will perfectly join the team.
